Looking Glasses,

on better terms than at any other house in this city.

A small invoice of first rate SADLERY.

An assortment of PATENT IRON WARE tinned inside

A constant supply of the above articles, with a general assortment of *TIN WARE* of the best quality, and on the most liberal terms may be had at the above store, well worth the attention of purchasers.

Pittsburgh, Oct. 8—2aw8t.

FOR SALE.

That very Valuable Real Estate called

HAMILTON HALL.

THE subscriber, wishing to remove from the country to a town, offers for sale, his beautiful FARM, on which he now resides, ten miles from the city of Pittsburgh, on the southwest bank of the Monongahela river, and two miles from M'Keesport, on the confluence of the Youghioghany and Monongahela rivers, and nearly opposite the mouth of Turtle creek.

This tract consists of about 275 acres of choice land, of which there is nearly 140 acres of first rate river and run bottom—the remainder is excellent tillable upland—there is about 90 acres of river bottom land cleared, which will produce as good corn and grass crops as any in the western country. In point of beauty, as well as excellent quality, this farm is excelled by none. The dwelling house is spacious, 72 feet in length, and one and a half story high, very neat and handsomely finished; a large barn with stables underneath, besides a horse stable, and other out houses, two tenant houses, and an excellent new Saw-mill, with a fall of 22 feet, and a stream of water sufficient for the purpose, for nearly nine months in the year. The same seat will admit of a grist or other mills also. There are several excellent springs for distilling; a handsome garden, stocked with all kinds of shrubbery; a young thriving Orchard, of the best fruit, and more than 3000 sugar trees on said farm.

If desired, there will be sold with the estate 100 full blooded, three fourths, and half blooded MERINO SHEEP, of superior quality and beauty, besides horses, cows, &c. and all kinds of farming utensils. The proximity to Pittsburgh and its excellent market, which unquestionably is the best in the Union, and the convenience as well by land as by water, makes it one of the most desirable and valuable estates in the western country; not only the bottoms but a considerable part of the upland, is excellently calculated for meadow. A full description is deemed unnecessary, as it is presumed the property will not be purchased without viewing it; however, it is calculated the estate will clear from 2500 to $3000 per annum, if well attended to. It is clear of all incumbrance, and an indisputable title will be given.

Besides the above, the subscriber will sell three excellent tracts of BOTTOM LAND, situate about five miles from Harmony, and nine miles from Beaver, 25 miles from Pittsburgh, on the Conequenessing. This land is of the very best quality for meadow or corn; each tract has an improvement upon it; one a saw mill; and another, a good dwelling house, barn, &c.

CHARLES VON BONNHORST.

October 15.—2awtf.

N. B. For further information apply to James M. Riddle, in the Diamond, Pittsburgh.

From the Richmond Enquirer.

VIEWS IN THE WEST.

The following is an extract of a letter from Dr. William Henry Hening of this city, now regimental surgeon to the detachment of troops commanded by col. Miller, of the 3d regiment, to his father, W. W. Hening, esq. of this city—which contains some interesting information relative to the *Western interests* of the United States—the observations are judicious; and we take much pleasure in submitting them to our readers.

Camp on Fox River, Green Bay, Aug 29th, 1816.

"In a letter which I addressed you previous to my leaving Mackinaw, you were informed of the route which I probably would pursue, in returning to Virginia. These anticipations seem thus far realized. In conformity to my expectations, early in July, the detachment of riflemen stationed at Mackinaw, received orders to repair to Green Bay, and there establish a fort with all convenient expedition: to look down all expected opposition from the Indians residing in this country. We sailed from Mackinaw on the 28th of July last, with the schooners Washington, Wayne Mink, and sloop Amelia; having on board colonel Miller of the 2d regiment colonel Chambers of the rifle, major Gratiot of the engineers, a detachment of artillery under captain Pierce, and four companies of the 2d infantry, amounting in the whole to 500 men. We entered the mouth of the river on the 7th of August and, contrary to expectations, received from the French inhabitants and Indians, a very friendly and flattering reception. Whether these professions were sincere, or proceed from their fears, time will determine. After looking for some days for a proper site, the engineer has finally fixed on the position, where the old French fort (Le Bay) formerly stood. It will be a stockade with strong pickets, a bastion at each angle, with a piece of artillery on each, amply sufficient to beat off any Indian force that can be brought against it. The garrison will consist of two companies of riflemen and two companies of infantry, all under the command of colonel Chambers. Some account of this very delightful country may prove not uninteresting.

When the French first established themselves here, they found the contrast between it and Mackinaw very striking—for, on leaving the latter place, vegetation was scarcely apparent; whereas, on arriving at the Bay, they found the woods and fields clothed in the most luxuriant verdure. At that time, the country was inhabited by two tribes of Indians, the Winnebagoes, (called by the French "Puons," or stinking) and the Manomenies, (called "Faulsavoins," or eaters of wild rice.) The Winnebagoes, proving most troublesome, the French and Manomenies turned their arms against them, and having killed a number, drove them to the Winnebago Lakes and the Rock river, where they ever since resided. The soil on both sides of the river is very fine, and the fine wheat fields and gardens give it every appearance of a rich and fertile country. The river abounds with fish, particularly a species of sturgeon, which exceeds that of James River, in the richness and delicacy of its flavour, and in the spring and fall, myriads of water fowl, attracted by the wild rice, darken the air. This plant springs up in water six or seven feet deep, so thick, as in many places, to impede the progress of boats and canoes. The Indians call it Ma-no-men, and living almost entirely on it—they have received from the French the appellation of Faulsavoins, or wild rice eaters. When the heads become ripe, they pass through it with their canoes, and bending them over, strike them with small sticks, and in a very short time, nearly fill the canoes with the grain. This, when cleaned, becomes an excellent article of diet, scarcely interior to the rice of the south. Every thing at present bears a peaceable aspect, but how long this state of things will continue, is very uncertain. Without a great deal of circumspection on the part of the Indian Department, and a chain of posts always properly garrisoned, I have little hesitation in saying, that our frontiers once again, will witness the horrors of savage warfare. The Winnebagoes, it it manifest, are opposed to our making any establishment in this country, as are also a part of the Faulsavoins. Nothing, I believe, but the strong force they have to combat, keeps them quiet. The storm is murmuring at a distance, which I am fearful will, sooner or later, burst on us with all the accumulated horrors of savage vengeance.

From Fort Osage in the Missouri Territory

The editor has just received a letter from a friend in that quarter, dated August 31, by which we learn some advices respecting that very interesting part of our country. We extract the following paragraphs:

"Two parties of surveyors have been here six or seven weeks; they left this to day; one party to run the boundary line south between the Territory and the Indian lands, which has never yet been run. After running two leagues square for the Fort on the west side of the line and river, they commenced in the centre of the fort to run due south to the Arkansaw river: the other party proceed up the Missouri to the mouth of the *Caw* or *Kanses* river, about 30 miles above us, whence they commence and run due north 100 miles, thence east until they strike the waters of the Mississippi.

"The surveyors while at this place, took the latitude and the variation of the compass: the fort stands in 39 deg. 5 min. north latitude. The variation of the compass was 11 1-4 deg. east.

The Indians appear somewhat dissatisfied at our running the lines, nor knowing or not wishing to know what it means—and not understanding the treaty which they signed some years ago. There is but little danger apprehended of their commencing hostilities. I believe if they cannot frighten, they will not fight us.

Mr. Choteau, mentioned in my last letter to you, was not defeated, as reported, but had a fight; he had 30 men, and was attacked by 150 *Pawnees*; he lost one man killed, and had four wounded. He defeated the Indians, who lost 7 killed whom he found, and a great number wounded, (but supposed many more were killed) he brought in 44 packs of beaver, 4,400lbs. He has returned with a party of about 40 men to the mountains to stay two years.

"It is *astonishing* in what numbers the people are flocking to this country from every state, and of every description. Boon's settlement, which a short time since comprised only a few scattering cabins, in an immense forest, and settled by the wild and uncultivated, has now become a country with courts of justice, and men of profession; and will soon resemble a city, with all its politeness, comforts and civilization.

N. Y. Col.

A LONG JOB.

The Rev. Mr. Milne, in a report to the Missionary Society for China says:

"We want sir, FIFTY MILLIONS of New Testaments for China: and after that about one sixth of the population only, would be supplied. I would ask no higher honour on earth than to distribute the said number."

Now if Mr. Milne had commenced the distribution of "said number" at the time the Ark rested on Mount Ararat, and had continued to distribute forty-three Testaments per day, Sundays excepted, he would have had on hand July 4, 1816, seven hundred and sixteen thousand, seven hundred and forty-seven. Or should he now begin his work and distribute ten each hour of ten hours in the day, he would end his labours on the 27th day of July, in the year of our Lord three thousand four hundred and eleven, at one o'clock in the afternoon!! *Vermont Gaz.*

EXTRAORDINARY OPERATION.

A London paper details the following extraordinary surgical case:—About six weeks ago an old woodman, returning from labour in the neighbourhood of Milverton, Somersetshire, fell against the stump of an oak. From the violence of the fall, his left eye was literally torn out, and pierced completely through by a splinter two inches long: in this state he returned to his cottage. An eminent oculist of Milverton humanely and gratuitously attended, took out the splinter, and replaced the organ, though removed two inches from the orbit, hanging only by a portion of muscle and cellular membrane. This effort of chirurgical genius was aided by nature; and the eye is positively preserved, and fixed in the orbit.

WHOLESOMENESS OF WATER.

Tornefort mentions a Venetian Consul who resided at Smyrna, that lived to the age of 218 years, and never drank any thing but water; which is said to be the universal and only liquor of the New Zealanders, who enjoy the most perfect and uninterrupted health, entirely untainted with disease; not a single person having been seen by Captain Cook that had any bodily complaint; nor, among the numbers that presented themselves to that renowned navigator, was there an individual observed who had even the slightest eruption upon the skin, or the least mark which indicated that any had formerly existed. It may be worthy of notice likewise, that two of the most athletic characters of antiquity, and a modern hero, whose intrepidity was long the admiration of all Europe, were among the practical advocates of this wholesome element. That water is not an incentive to vice, like many of the liquors in common use, and that its votaries are exempt from the disgrace of ebriety, has been observed by Shakespeare—

——"Honest water
Is too weak to be a sinner;
It ne'er left man i' the mire."

Whereas Solomon remarks—

——Strong drink is raging;
And whosoe'er's deceived thereby,
Is not wise.

The ancients usually diluted their wines with a considerable portion of water; a custom that even the "tuneful Teian," of far-famed bacchanalian memory, appears to have sanctioned by his own example—

Bring hither, boy, a mighty bowl,
And let me quench my thirsty soul;
Fill two parts water, fill it high—
Add one of wine, for I am dry.
Thus let the limpid stream allay,
The jolly God's too potent sway."

Our more modern votaries of Bacchus, are quite content to suffer a dilution of only "one part" water!

Pet. Intel.

CHARLESTON Oct. 3.

Latest from Algiers.—We have been politely favoured with the following extract of a letter, to a gentleman in this city, (received via Boston) which shows how *manfully* the English have put into execution their threats of 'annihilating Algiers.'

"*Quarantine, Malaga, July* 29.

"There has been a sad affair at Algiers, with the English. Lord Exmouth with four line of battle ships, three frigates, and seven bomb ships lying in the harbour of Algiers, himself with some of his officers went on shore, and after some conversation for a treaty similar to that obtained by the United States, an altercation took place. The Dey *ordered* Lord Exmouth on board, and to quit his dominions. Two of his Post-Captains, after losing their fingers, and one his hand, (in a battle with some Turks, by the stroke of sabres) *were tied with their hands behind them and sent on board.* What is the most surprising part of this recontre is, that the *English did not fire upon the town from their ships.* We should have judged so, even had they by so doing exceeded their orders, and even their forces; which certainly *to us appears sufficient* for the Algerines. I am, however, told by an officer of the Ontario, who was alongside. That the fortifications of Algiers are very capital, and are still improving. A large expedition is fitting out in England, destination said to be unknown."

TO FARMERS.

It is found by examination, that English Grain is receiving injury by being harvested before the straw was sufficiently dry. This error has probably arisen from the unusual brightness of the straw in the field, which was thought to indicate a greater degree of maturity than it had really attained. The damage appears to be principally sustained by the straw. But if neglected, it will be very soon communicated to the kernel. It is hoped that immediate attention to this important object will be the means of preserving the rich and abundant harvest, with which divine providence has crowned the labors of the husbandman.

A bon vivant.—A gentleman who once held a high situation at Madras, drank, in 22 years, 1312 dozens, or 31 pipes of Madeira, (42 dozens to the pipe,) 654 dozens of claret, 654 dozens of malt liquor; 322 dozens of brandy; and at the end of 32 years, he *complained* that *his hand shook!*

SUPPLEMENT

To an Ordinance for the suppression of nuisances, and the introduction of wholesome regulations into the city.

WHEREAS the existence of slaughter houses within the city is highly injurious to the health of the inhabitants thereof, *Therefore,*

Seal

BE it ordained and enacted by the Citizens of Pittsburgh in Select and Common Councils Assembled, That from and after the first day of April next, no stall in either of the market houses in the said city, shall be let to any butcher who shall use, let or occupy any slaughter house, or kill any cattle within the limits of the city, or who shall vend the meat of any animal killed within the city.

Ordained and enacted into a law, in council, the 19th day of October, A. D. 1816.

WILLIAM WILKINS,
President Common Council.

Attest.—S. ENGLES, *Clerk Common Council.*

JAMES ROSS,
President Select Council

Attest.—JAMES M. RIDDLE, *Clerk Select Council.*

TO BE LET,

And possession given immediately,

A convenient TWO STORY HOUSE, pleasantly situated in the eastern parts of the city. For terms, apply to

A. BEELEN.

Pittsburgh, October 25, 1816—3t

Night School.

Geo. Forrester & A. Donough,

HAVE commenced their Night School—A considerable number of scholars can be accommodated with the best means of improvement. Early application is requested—The use of the globes and maps taught gratis to such of the scholars as may choose to study them.

Fourth street, Oct. 25, 1816—3t

Notice.

THE partnership heretofore existing between *Loyd and Thompson,* saddlers, was dissolved on the 16th inst. by mutual consent. The accounts of the partnership will be settled by Wm. Thompson.

WILLIAM THOMPSON,
ALFRED LOYD.

October 25, 1816—3t

Caution.

EXTRAORDINARY as it may appear, I am compelled by necessity to *give notice,* as well as by the favour of my fellow beings; not to trust my husband George Dillard—as for many years past he has not assisted me to make provision for himself or me; but has always so soon as by my industry I had got any property by me—he has constantly by his foolish bargains and drunkeness taken all I could make. I therefore beg that no person will trust him with an expectation of getting paid by the hard earnings of me, a poor weakly woman, as I will not pay his contracts if I can help it.

MARY DILLARD.

October 25, 1816—3t

To my Creditors.

TAKE NOTICE, that I have applied to the Judges of the Court of Common Pleas in and for the County of Westmoreland, for the benefit of the several acts of insolvency of the Commonwealth of Pennsylvania, and they have appointed the third Monday in November, 1816, to hear me and my creditors at the Court House in the Borough of Greensburgh, when you may attend.

HARMAN NEAS.

Jail of Westmoreland County,
October 15, 1816.

Pittsburgh, August 30. 1awtfg

PITTSBURGH.

FRIDAY, OCTOBER 25, 1816.

It is said, that two Federalists (Levi Pawling and Isaac Darlington, Esqs.) have been elected to Congress, from the district composed of the counties of Montgomery and Chester.

Gen. W. H. Harrison, is elected a member of Congress from the state of Ohio, by a considerable majority. The General will now have an opportunity to examine into the cause of the mysterious course pursued towards him by the councils of his country.

Mediterranean Squadron.—The Secretary of the Navy states, in a letter to a naval officer at Norfolk, "that it is not contemplated at present, by government, *to reduce the strength of our squadron in the Mediterranean.*

Suicide.—On the morning of the 12th inst. *George Hoffman*, who resided near Williamsport, Washington county, put a period to his existence, by shooting himself through the head. We know not the causes which led to the perpetration of this dreadful act.

FIRE AT NEW-ORLEANS.

Extract of a letter dated New-Orleans, Sept. 28, to a gentleman in Lexington.

"Our city this day is on FIRE, and has burnt the best part of THREE SQUARES, between Toulouse and the upper part of the city, and Royal and Bourbon streets.

"*3 o'clock.*—The wind has shifted, and the fire will be stopped"

[The particulars of the above calamity have not been received.—It is said that the theatre and about eighty houses were consumed.]

Spots in the Sun have again become visible; and attracted much observation. A Baltimore paper remarks, that their number and magnitude, present the same appearance as in June.

Kentucky Tobacco.—It is said that the crops of Tobacco in Kentucky far excel any that were ever before produced in that state. One letter indeed states, that the production of this year will be ten fold greater than that of any former year.

A British Deserter.—It is stated in the *American advocate* (published in Watertown, county of Jefferson,) that, about the 1st inst. a British deserter from Kingston passed through Sackett's Harbor, and was soon pursued by three armed English officers, who overtook and secured him at Henderson. While the officers were conducting their prisoner back to Kingston, a number of ship carpenters and other citizens of Sackett's Harbor interfered and effected his escape.

A letter from Brunswick in the District of Maine, states, that Snow fell on the night of the 6th inst. two or three inches deep.

Sickness at Gaudaloupe.—Captain Andrews, who arrived at Providence, from Point Petre, Guadaloupe, states, that, while there, he saw in *one day one hundred funerals.* The sickness continued with severity, when captain Andrews sailed. Two of his crew died while in port, and one on his passage home.

The democrats demand federal support of the administration, because most of its late measures have been federal. The Connecticut wits deny the major; and affirm, that the measures have been *Ultra-Federal.*—So straight, that like Paddy's trees they lean the other way. Every one, say they, relishes *salt* in his soup; but no one loves to drink *brine.* *Bost. Cent.*

Presidential, what shall I call it?—I declare I was most sadly puzzled the whole of yesterday to find a head for a little paragraph which I was cogitating with reference to Mr. Monroe and our republican electoral ticket. A president is to be made thinks I; but what shall we call the process? Not an election! for the people have nothing to do with it, and the electors have nothing to do with it. One half of the republicans & all the federalists are against the man; but the caucus have said "it shall be so," and it must be so. Well, it can't be called a contest; for there is no opposition nor a struggle, for there is no difficulty in the thing—it is managed as nicely as clock work. Can we call it a choice? No! unless it be one of Hobson's, for it is "take him or none." At length I thought I had hit it! Ah ha! says I to myself, it is a Presidential race, in which all the subscribers, but one, to the purse pay forfeit, and he wins by walking over the course. But, alas! when I reflected, upon what delicate ground I advanced when I spoke of racing to any of our worthy rulers, I dropped the subject in despair; and for want of a caption held my peace. It was some what singular, however, I thought, that a man should get to be president, without being approved of by his own side, after having forfeited the confidence of two administrations, and yet without the opposition of a name! But I remembered that Maximin got to be emperor by trotting all day after the King's chariot—and so made no more ado about the matter.

Bal. Miner.

A Frenchman has arrived at Baltimore, (says a N. Y. paper) who has, after 13 years reflection and two of labour, invented a BALLOON in the shape of a fish, which can traverse the air with velocity in any direction!

[The above is so much "*like a Whale,*" that we think it can be no other than a "*spirit from the vasty deep.*]

We understand (says the N. Y. Gazette) several of the persons concerned in building, yesterday, reduced the wages of mechanics and laborers one shilling per day. The resumption of specie change, and decline in our markets, fully warrant this reduction in labour; almost every article necessary to building, having also fallen in price.

DARING ROBBERY.

On Tuesday night last, at about 11 o'clock, a gentleman returning home, was accosted by a man very genteely dressed, at the corner of Lombard and Seventh street, who requested to be told the hour of the night. The gentleman drew out his watch, and giving him the required information, crossed the street, and from some one, immediately received a blow from a stick, across the face, which lacerated him in a shocking manner. He fell, when the villain placed his knee upon the breast, and his hand in the turn of the neckcloth, while another, whom he believes to be the man who first accosted him, robbed him of a valuable gold watch, and two dollars in notes. They then fled, leaving part of the surtout of one of the villians in the possession of their victim, who cried murder, and for the watch, but without effect. It is to be hoped that the vigilance of our police will be exercised to secure these villians and bring them to condign punishment.

Phil. True American.

DUANE vs. BINNS.

Duane is still engaged in cannonading his brother democrats of Pennsylvania; and Binns is as busily employed in returning the same compliment to Duane. There is, however, such a manifest difference between the weight of metal employed in this engagement, that Binns seems to return a broadside of cannon balls, with a broadside of boiled potatoes. We really feel something like compassion for this unfortunate man, compelled as he is, to encounter an opponent with such fearful odds.

Fed. Rep.

The times are now bad, every man is complaining. The wholesale merchants cannot get in his debts from the shop keeper, the shopkeeper cannot get his debts from the citizens, the currier complains of the shoemaker; the shoemaker of his customers, the draper accuses the tailor, the tailor shows lists longer than his measure, of money due him, the landlord complains of his tenant, and the tenant of the times. In every class of society, more or less distress is felt. This is not the distress of war, it is the distress of peace of treble extended importations, and the false credit of innumerable banks now curtailing!!

All these evils are to be remmedied by a little attention to their causes, and following the course which common sense dictates: Import less and manufacture more, let all citizens join to effect this. Build fewer houses in the city and cultivate more acres in the country, this will reduce the markets. Let commerce be guided by natural demands, and let not merchants expediate vessels like so many Quixots of adventures. A careful examination into the state of affairs, and our relative state with the world would be the means of saving us from much mischief. Let not this be considered as hypothetical: time will prove it too true to those who neglect it: it is drawn from nature, and natural causes will produce effects in spite of all the enthusiasts of the world.

N. Y. Nat. Advocate.

Extract of a letter from a gentleman on board the U. States sloop of war Peacock, dated

"GIBRALTAR, Aug. 16.

"We arrived here on the 15th inst. the day after Lord Exmouth's squadron sailed for the destruction of Algiers.—On taking his departure he was saluted by the batteries on shore, which was returned by the squadron. They have been here some time preparing and exercising their boats for the expedition and at one time made a display of ninety exercising a brass gun in each.

"Commodore Chauncey is off Naples, where our squadron at present rendezvous, and the Peacock proceeds to join him."

FIRE IN THE WOODS.

In the interior of New-Hampshire immense fires have broken out in the woods; and continued burning for a week or too past. During the last week the vicinity of Portsmouth was overspread with such thick smoke as sometimes to render the sun almost invisible, and to eclipse the moon.—The fires extended through Gilmanton, Guilford, Alton, Barnstead, New-Durham, Farmington, Rochester, Plymouth, Rumney, Wentworth nad Warren. Further east there are extensive fires along the towns on the Kennebec River. At Gilmanton, an explosion took place last week, which threw up timber to the height of 60 feet, and a column of fire was raised as high as the eye could reach to the extent of about 5 rods square; this happened on land of Mr. Thomas Thurston, about four miles east of the Academy, between 1 and 2 o'clock, A. M. attended with a noise similar to an earthquake, and lasted a minute or two. *Bos. Gaz.*

Squirrels.—The New York (western) papers mention, that the *squirrels* are migrating to the south from that quarter, in such numbers as to cover the fences; and are killed by hundreds by the boys, with clubs, stones, &c. Our old men say when the squirrels move south, it prognosticates a severe winter. *Quere*—May not the movement indicate, that instructed by the instinct which Providence has bountifully bestowed on all its creatures, they are warned that the coldness and aridity of the season has prevented the nuts and acorns on which they subsist in winter from coming to maturity; and are seeking their food in other climes?

TO FARMERS.

It is thought adviseable by some experienced farmers to strip the husks of the corn that is touched by the frost. It will be found upon examination that the inner husk being very tender is so injured as to adhere to the corn and becomes rotten—the experiment cannot make it worse.—The year of the great sickness was preceded by an early frost which spoiled the corn. The sooner the husks are opened the better.

Extract of a letter from Buenos Ayres, dated, August 27.

"At this moment our artillery is ordered out, and I am about starting to witness the expected battle." *N. Y. Spec.*

A singular circumstance took place in this city, on Thursday night. A man and his wife were quarrelling, and the husband beating his helpmate. She flew from him—but left behind her, her, but not his son, of about ten years of age. The little boy, irritated at the treatment of his mother, grasped a gun, which he found in the room, and discharged it at the man—who was wounded, but not mortally.

Richmond Comp.

POETRY.

The individual source of the following moral and elegant Ode cannot long remain concealed. But until revealed, our country ought to take out a copy-right to productions of so much intrinsic excellence;—otherwise, we shall soon see this and others of the kind, transplanted into some European *parterre*, and passed off to the world as indigenous.—We copy it from the *Providence Gazette.* *(Boston Centinel.*

TO THE GLOW-WORM.

"*See tongues in trees, books in the running brooke,*
"*Sermons in stones, and* good in every thing."

Thou gaudy trifle, twinkling bright,
Like gem upon the robe of night:
Or mid deep shrouding darkness seeming,
Like star through night cloud faintly beaming:
I mark thee oft, as lone I stray,
When twilight draws its curtains gray,
And pause, with pondering eye, to see
Instruction in a thing like thee.

When evening's shades all nature hide,
Meet hour, when Love is lightly roaming,
Thou light'st thy little lamp, to guide
Some bold LEANDER to thy side,
Like him who plunged in Helle's tide,
When winds were high, and billows foaming.
But, like the snares of vice, the glow
That guides the lover, lures the foe,
The direst tempest oft is nigh,
When all is still in earth and sky;
And swift destruction oft is nearest,
When fortune's fickle smile is dearest.

Short is thy date; the frostly breath
Of Winter's cold and cheerless blast,
Will chill thee on the barren heath,
When Summer's fleeting reign is past;
And thus Death's icy chains will bind
Man's nobler frame—the wise, the brave,
Must sink forgotten in the grave,
Nor leave a mouldering wreck behind.

B.

OBITUARY.

We have to perform the melancholy task of announcing the decease of his excellency GEORGE MADISON, governor of this state.—He died on Monday last at Paris, Bourbon county, where he had been several weeks confined by a painful illness. We shall not attempt to pourtray the character of this amiable man; his virtues and patriotism are too well known to need eulogium. His whole life was devoted to the service of his country—the conspicuous station to which he had been so recently chosen by the unanimous voice of his fellow citizens amply testifies his worth.

In consequence of the above distressing event, the government will be administered by GABRIEL SLAUGHTER, Lieutenant Governor, for four years. The Constitution does not provide for a new election. *Lex. Reporter.*

THE BANKS
West of the Mountains,

ARE most respectfully informed, that the *BANK BILL ENGRAVING & PRINTING OFFICE* at Pittsburgh, shall in future be kept constantly open in such a style of elegance and punctuality as to merit the honor of their patronage.

The *Bank Paper* manufactured for the office, by Messrs. DRUM & MARKLE of Greensburgh, is allowed by competent judges to be equal to any in the United States.

CHARLES P. HARRISON.

Pittsburgh, October 25, 1816—2aw1m

October 15, 1816.

Fancy and Common Brushes
WHOLESALE AND RETAIL.

THE subscribers inform the citizens of Pittsburgh and the country merchants in general, that they have for sale a general assortmen of

Fancy and Common Brushes,

At their Store in Wood street, next door to the Western Hotel, kept by H. Westbay.

And intend as soon as practicable to establish a manufactory, where they will dispose of their goods as reasonable as can be purchased elsewhere.

THOMAS PORTER & CO.

Pittsburgh, October 15—3t.

For Sale,

FOUR tracts, containing each 100 acres, of the lands appropriated to satisfy military claims situate near *Fort Laurens* in Tuscarawas county and state of Ohio. These lands are of a good quality, having about 35 acres of high rich Prairies, easily rendered fit for the plough, and the rest well timbered with oaks, walnut, hickory, &c. The whole body lies high, healthy and level enough for a good farm.

The Tuscarawas branch of the Muskingum which runs through it, is 16 perches wide and navigable for boats of 20 tons burthen to a great distance above fort Laurens at all times when the Ohio is so: it being the branch contemplated to communicate by a lock with the Cuyahoga river which is navigable to Lake Erie.

The country round the fort is well settled and settling, principally with the descendants of Germans and people from the eastern states,—and the country round is less hilly and has a larger proportion of good level farming land than most of those districts in the state which are esteemed healthy. The river here abounds with excellent fish: the soil and climate are adapted to Indian corn, small grain, and grass, of which abundant crops are raised. The range for cattle and hogs are fine.

Fort Laurens is situate about 12 miles from New Philadelphia, the county town: 11 miles from Bandal, six miles from New Bethlehem, 12 miles from Canton the county town of Starks, 45 miles from the Salt-works, and a number of small towns have been laid out in this neighbourhood, one within a mile, one within three miles and another within eight miles. This neighbourhood is inviting to storekeepers and mechanicks of all descriptions, and affords a great opening for men of industry and enterprise.

The terms of sale will be made known on application at his office in fifth street to

AQUILA M. BOLTON,
Attorney at Law and Conveyancer,

Who has made arrangements to furnish *all kinds of* INSTRUMENTS OF WRITING, with precision, neatness and despatch, and will undertake to liquidate accounts and close a sett of books.

Pittsburgh, October 15, 1816—3t.

TICKETS FOR SALE

At the Store of WILLIAM HILL *for Cash only, who will receive the drawings regularly.*

Pittsburgh, July 8, 1816.

DOCTOR CHISHOLM'S
Anti-Bilious Pills,

Of a quality superior to any thing of the kind ever offered as a GENERAL MEDICINE, in this Country.

NOW prepared from a recipe of the celebrated *Dr. Chisholm*, who, from a long residence in the West-India Islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates.

This extraordinary Medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of *Anti-Bilious Pills.* The extraordinary powers of this medicine as a solvent and evacuent of Bile, is without example; never producing debility or injuring the health, in the smallest degree, of the most delicate child or weakly female:

The BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excruciating pains of the cholic, like a charm, by abusing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains* wherever seated.

A single Pill, taken every fourth hour with a cup of flaxseed tea, will cure *Pleurisy,* promote expectoration, and relieve coughs and colds.

In CONSUMPTIVE CASES and DISEASES OF THE LIVER, no medicine ever yet discovered, has been known to perform such cures. Two Pills taken every third morning, will be found sufficient, unless costiveness prevails; in which case the dose may be increased according to the strength or constituton.

The *Dysentery, Croup,* and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing & great oppression, with faintings, are fast sinking the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.

The above valuable Medicine is Sold ONLY *in Pittsburgh, by*
J. P. & J. W. SKELTON,
at their Wholesale and Retail Apothecary and Drug Store.

M'DONNEL & EKIN,
HAVE RECEIVED,

AND will in future be regularly supplied with the following articles which they offer for sale on moderate terms.

October 8.—2awtf

Valuable Property for Sale.

THE Subscriber will Sell the whole or any part of the following described Valuable Property, viz:—

A LOT OF GROUND, situated at the corner of Smithfield and Second Streets, in the City of Pittsburgh, containing 50 feet in front on Smithfield Street, and 66 and an half feet in depth. This Lot can be conveniently divided into two handsome building Lots of 25 feet front each; and the scite of the Bridge over the Monongahela River being fixed at the mouth of Smithfield Street, renders them eligible stands for Mercantile, Manufacturing, or Mechanical business.

THREE LOTS OF GROUND in the City of Pittsburgh—one fronting on Second Street, opposite the New Market, fronting a square of 100 feet wide extending to Smithfield Street, containing 40 feet front on Second Street, and extending in depth towards Front Street 65 feet, on which is erected a large and commodious Warehouse, suitable for any person engaged in Commission business—and its vicinity to the river, renders it peculiarly advantageous to mercantile men. The other two Lots are situated on the north side of Front Street—one of them containing 40 feet front on Front Street, and extending in depth towards Second Street 65 feet, on which is erected a large two story Frame Dwelling House, recently occupied by Thomas Bracken—the other adjoining the above 20 feet in front on Front Street, and 65 feet deep; both eligible situations for business.

Also, *AN OUT LOT,* adjoining the City, containing about 15 acres, and adjoining property belonging to Doctor George Stevenson, and James R. Butler, bounded on the Monongahela river, and the public road leading to the Turnpike at Thompson's Lane. This Lot is in the highest state of cultivation, with a thriving young Orchard of the best grafted fruit, a Brick Spring House, over one of the finest springs in the Western Country, and a variety of other improvements. This Lot will be Sold either in whole, or be divided into small Lots, to suit purchasers, a plan of which may be seen on application to the subscriber.

The whole of the above described property, recently belonged to the late Thomas Bracken. The terms will be liberal and accommodating to purchasers. Any person wishing to view any part of the property, will apply to the subscriber, or those on the premises.

DAVID PRIDE.

Pittsburgh, April 3, 1816.

ROBERT BALDWIN.

Chartiers Mills, October 15, 1816.

☞ The subscriber has also a pair of excellent Mill Stones, Laurel Hill Manufacture, which he will dispose of.

SAMUEL DAVIS,
Clock and Watch Maker,

RETURNS his thanks to his customers in general for past favours, and hopes for a continuance of the same. He informs the ladies and gentlemen of Pittsburgh, and the country in general, that he has now in his employ a gentleman lately from Paris, and has it in his power to repair Watches and Timepieces of all descriptions in the best manner and on the shortest notice, and warrants them to perform.

He requests all those indebted to him by note or book account for longer than three months, to call and settle their accounts before the 15th of October next. If this request is neglected their accounts will be put into the hands of proper officers for collection without respect to persons.

Pittsburgh, September 14, 1816.

NOTICE.

DOCTOR STEVENSON requests all persons indebted to him, to settle their accounts.

Pittsburgh, 15th September, 1816.
